

# Norstar Managed IT Services

## Hosted Exchange

### Enterprise Email without the Hassle

Give everyone powerful email and calendar management with mobile device sync and 100% uptime service guarantee.

#### IF YOUR BUSINESS NEEDS:

- 50GB mailbox, pooled (reallocate and share mailbox storage as needed)
- Free access to migration tool making moving to Hosted Exchange easy
- Daily backup; redundant storage in multiple resilient data centers

#### SEE HOSTED EXCHANGE FEATURES

## HOSTED SHAREPOINT

### Enterprise Collaboration and Content Management

Give your organization an affordable, cloud-based collaboration and content management solution without the expense of standing up hardware or patching software.

#### IF YOUR BUSINESS NEEDS TO:

- Increase employee, vendor, and consultant communication and collaboration
- Easily scale up or down as business requirements change
- Access files from anywhere in the world via your favorite browser

[SEE HOSTED SHAREPOINT FEATURES](#)

## Data Backup

### Secure, Affordable Backup for Business Continuity

Reliable and easy-to-implement, Norstar Data Backup provides secure off-site cloud backup for personal computers and servers.

#### IF YOUR BUSINESS NEEDS TO:

- Deploy a robust backup solution without taxing your internal IT resources
- Avoid the pitfalls of data loss and the expense of managing an in-house backup system
- Preserve off-site copies of your server applications and data—automatically

[SEE DATA BACKUP FEATURES](#)

## HOSTED CLOUD

### IT Simplified

Norstar Cloud Hosting service reduces capital and operational expenses—including hardware, personnel, and power costs—by delivering scalable infrastructure and applications off-site.

#### IF YOUR BUSINESS NEEDS TO:

- Reduce Capex and Opex with a scalable infrastructure and applications off site
- Increase security with built-in redundancy and failover
- Entrust your infrastructure to the leading VMware-based vCloud Datacenter platforms
